

2022  
PROJECTS CATALOG

*“... a garment of praise*

*... instead of a spirit of despair”*  
Isaiah 61:3

## ABOUT HEED

*We believe every child can learn, every child is gifted, and every child has value.*

HEED serves where there was no school, no clean water or health care, but plenty of despair. God had a plan for transformation. Through HEED, over 600 children now receive education, healthcare, nutrition, and discipleship through our primary school, high school, and village church. HEED also empowers the students and the community through our Vocational Institute, demonstrating climate-wise farming techniques on our farm, and bringing better health through our community clinic.

This catalog contains some of our 2022 programs and initiatives. We invite you to partner with us as we empower, equip, and encourage children and their community toward fullness of life.

**If you would like to give an item as a gift, state that on the Give Page or with your donation via our website. We will send you or your loved one a card honoring your gift.**

## OUR MISSION

*To partner with communities in Uganda so that children and their families experience fullness of life for generations.*

### Our Pathways to Community Transformation

- Education
- Water Projects
- Spiritual Growth
- Health & Sanitation
- Food Security & Income Generation

Follow news and project updates through the year on our blog at:

## EDUCATION

*Education creates a path out of poverty.*

We believe in equipping students with practical skills to live healthy, productive lives, and earn a living. In November 2021 we launched our new Vocational Institute teaching hairdressing, tailoring, catering, mechanics, and agriculture. Supplies are needed for our welding and motorcycle mechanic programs.

### Provide Practical Skills

- One-month teacher's salary | **\$145**
- Sewing machine | **\$100 each**
- Welding:
  - Welding machine | **\$1000**
  - Helmet, gloves & glasses | **\$25/set**
- Carpentry tools:
  - Handsaw | **\$17 each**
  - Hammer | **\$5 each**
  - Wood | **\$50 per lot**
- Mechanic program:
  - Motorcycle | **\$500**
  - Toolkit | **\$75 each**

## GIVE POWER & CONNECTION

*Equip students for the modern world.*

Because of the development HEED has created in the area, the government has brought power lines to connect our projects to the national grid! Once we can run power lines to each building and install electric meters, our buildings will have power. The 21st Century is coming to Kyakitanga!

Starlink, a subsidiary of SpaceX Corporation, who provides internet access through a network of low-Earth-orbiting satellites, is doing a beta test in Uganda. HEED is participating, and we are excited to create a campus-wide wireless network when the satellites are launched over Uganda sometime in 2022. Consistent, affordable Internet will enable staff to work effectively and provide an educational leap forward to our students.

### Help Us Connect

- Connect a building to power | **\$1300**
- Campus-wide wireless internet hardware | **\$500**
- Starlink Internet connection | **\$100/mo.**

## WATER, SANITATION & HYGIENE

*Water brings life.*

We are still working toward an adequate year-round water supply for the schools. Adding a water harvesting system to our new Multipurpose Hall would increase the primary school water supply by 25%. A solar pump to an elevated water tank would allow water to flow by gravity throughout the primary campus, to our clinic, and to the teacher quarters.

### Supply Water & Hygiene

- Month's supply of soap | **\$35**
- Water tanks | **\$ 700 each**
- Solar powered pump | **\$3500**
- Elevated water tank and stand | **\$5500**
- Water distribution station & tap | **\$250**

## HEALTH

*Good health is a priceless gift.*

Until we opened our community clinic in 2020, the nearest qualified medical care was 12 miles away, via motorcycle taxi. The clinic serves our students, staff and about 12,000 people from six villages. On top of the strain of COVID, 90% of our community reports contracting malaria in the last year. Community health programs are critical to helping the community thrive.

### Give Improved Health

- Nurse practitioner salary | **\$200/month**
- One-month medical supplies | **\$250**
- Malaria prevention & testing | **\$500**
- COVID prevention outreach | **\$200**
- COVID test | **\$40**

## FOOD SECURITY & INCOME GENERATION

*Innovation for better futures.*

Our demonstration farm allows us to grow crops to decrease school expenses and demonstrate innovative ways to generate income. Pigs, goats, rabbits, cows, & poultry provide improved nutrition for our students, demonstrate progressive animal rearing techniques for our vocational program, and provide fertilizers for the garden.

Our animals and crops are dependent on seasonal rains which are becoming less consistent. Digging a large pond is the first step in creating an irrigation system that would help prevent crop failure and allow for year-round growth of crops.

### Equip Our Demonstration Farm

- 10 chicks | **\$25**
- 1 piglet | **\$50**
- 1 goat | **\$75**
- 1 cow (you name) | **\$700**
- Dig 1 acre irrigation pond | **\$5000**

## EMPOWER FUTURES

*God created us to flourish but barriers like poverty hinder that.*

Education empowers futures no matter the age. In addition to our schools, we have launched a vocational institute, small business programs for school dropouts, and plan to begin an adult literacy program in 2022.

Saving Circles have proven effective in combating poverty by providing members with the means to cope with emergencies, build capital, and create businesses that support genuine self-reliance. 82% of our community members earn less than \$1000/year. Saving Circles are our core project to move the community beyond poverty.

### Provide Training

- Saving Circle starter kit | **\$100**
- Adult literacy instructor | **\$125/mo.**
- Vaseline making (*Vaseline making & supplies for 20 people*) | **\$85**
- Sandal making program (*Sandal making & supplies for 20 People*) | **\$225**
- Yogurt making (*Yogurt making & supplies for 20 people*) | **\$350**

## SPIRITUAL GROWTH

*Every child is created in the image of God, is valuable, and has a purpose.*

This year the church was finally completed inside and out. It only lacks the final coat of paint. We also purchased a small house neighboring the church for pastor’s housing, but it has dirt floors and bare, brick walls. Our Pastor Annet moved from the comforts of the city to the village to serve, and we would love to make this house a home for her.

The isolation from repeated school closures due to COVID has been especially hard on our youth. Help us to draw them back, encourage their faith, and equip them with skills through a 5-day camp and quarterly outreaches with The Gospel Blaze ministry.

### Build the Kingdom

- Bible for graduating students | **\$8.50 each**
- Paint church | **\$4000**
- Finish pastor’s house | **\$5,000**
- Area Pastor’s Fellowship | **\$100 per day**
- 5-Day area youth camp for 500 | **\$8.50 per child**
- 3-day Gospel Blaze Outreach Team | **\$500 per day**

## MONTHLY GIVING

*Consistency brings stability.*

2020 and 2021 have brought challenges no one expected, and we are grateful to our monthly donors who helped us continue to operate, pay staff, and minister in the crisis despite repeated school closures. Regular giving funds operations and helps us budget and plan effectively. Would you consider becoming a monthly donor to help us sustain and grow ministry programs?

### Give

Online: [www.heeduganda.org/give/](http://www.heeduganda.org/give/)

Mail/Check: **HEED Uganda • 555 Walnut St. #6 • Edmonds, WA 98020**
